

DURABLE DÉCOR

Affordable and durable, these dishes and dens fit the needs of any reptile keeper. The rock look and texture enables your pet to climb on them easily, while still allowing for easy cleaning. A lip around the bottom and wide base adds stability to keep them from being knocked over. The strong plastic material can stand up to claws and heat, making the dens a great basking area as well.

Durable Dens

This décor provide a secure hiding place for your reptile as well as being a great basking spot. The natural rock look helps to add to the aesthetics.

Durable Dishes

The shallow design of these dishes allows them to be used as a food dish or water bowl; the smaller surface area keeps water from evaporating too quickly. The natural shape of the dish helps it to blend into the terrarium.
