Terrariums

The relationship between tank size and animal health is based on the simple fact that healthy reptiles are bound to grow. The space that was ample for a small pet may cramp a full grown one, leading to health problems that can seriously shorten its lifespan. Understanding how large a critter can grow before purchasing a habitat is critical knowledge for a successful long-term outcome.

CRITTER CAGE® ENCLOSURES

More reptile and small animal fanciers choose Zilla® Critter Cage® terrariums, thanks to the sliding top screen for added strength, ease of access and improved features. The top is escape-resistant mesh that opens and closes with a smooth slide and when closed can be locked for added security. Pet comfort and health is assured by a recessed hanging space for water bottles, plus wiring ports to neatly channel heater cords.

Item No.	Size	Retail Package Dimension (Item Dimension) (L" x W" x H")	UPC
100128055	5.5	16.375 x 8.625 x 10.75 (16.1875 x 8.375 x 10.5)	0 96316 66020 5
100128010	10	20.5 x 10.75 x 12.875 (20.25 x 10.5 x 12.5625)	0 96316 66021 2
100128015	15	24.5 x 12.75 x 13 (24.25 x 12.5 x 12.75)	0 96316 66022 9
100128021	20L	30.5 x 12.75 x 13 (30.25 x 12.5 x 12.75)	0 96316 66024 3

How the terrarium is measured:

Terrarium Size	Actual Dimensions L x W x H
5½	16¾ x 8¾ x 10½
10	20¼ x 10½ x 12¾/16
15	24¼ x 12½ x 12¾
20 Long	30¼ x 12½ x 12¾
30 Breeder	36¾ x 18¼ x 12½/16
40 Breeder	36¾ x 18¼ x 16½/16

Tempered vs. Non Tempered

Due to glass availability, Central Aquatics may temporarily substitute regular or non-tempered glass panels with tempered glass panels. Any time a glass substitution is made, a sticker will be adhered to the aquarium/reptile enclosure bottom as a precaution to the end user.

Please note: Any aquarium/reptile enclosure that is altered in any way (i.e., drilled, attempted to be drilled, the center brace removed) by an individual outside of Central Aquatics, will deem the warranty null and void.

Fire Skink
(*Lepidothuris fernandi*)

DELUXE CRITTER CAGE® ENCLOSURES

including Screen Covers with Lockable Feeding Doors

Our best-selling Critter Cage® enclosure with a Sliding Screen Top are available with Lockable Feeding Door. This new design provides a comfortable enclosure for pets and minimizes the chance of escape during feeding time. The front sliding, metal screen contains a feeding door with locking pins approximately 6.5" x 4" as well as breakouts designed for hang-on water bottles and electrical accessory cords.

AQUATIC TURTLE QUICKBUILD HABITATS

Watch the Video

The Zilla® Aquatic Turtle QuickBuild Habitat is the perfect home for your aquatic turtle that's designed with both you and your turtle in mind. Whether you're new to keeping turtles or a seasoned pro, this habitat makes it easier than ever to create a comfortable environment. The clear glass design with front-opening doors not only looks great but also makes it easy to access your turtle, with secure locks to keep them in their enclosure. We've added extra features, like locks on the top screen and feeding port, so you can have peace of mind knowing your turtle is secure. Managing cords for lights and heaters is hassle-free with built-in cable passes on the back. And when it's time to clean, the innovative drain system with a pump lets you change the water quickly and easily.

- STYLISH AND PRACTICAL DESIGN:**
 Clear glass with front-opening doors for easy access, plus secure locks for peace of mind.
- QUICK AND EASY CLEANING:**
 Innovative drain system with a pump for hassle-free water changes.
- NO MORE CORD CLUTTER:**
 Built-in cable passes on the back make it easy to organize cords for lights and heaters.
- EXTRA FEATURES FOR YOUR TURTLE:**
 Features secure locks on the top screen and feeding port to keep your pet enclosed.
- EASY TO BRING HOME AND SET UP:**
 Ships in a compact flat pack, saving space and making it simple to transport and assemble.

BEARDED DRAGON HABITAT ACCESSORY KIT COMPONENTS

When choosing an enclosure for your kit, factor in your reptile's future size to provide ample space as they grow.

FRONT OPENING TERRARIUMS

This style of habitat allows reptile and amphibian keepers easier access to their pets without the need to move hot lights. The Zilla® Front Opening Terrariums come with a realistic rock foam background, removable doors, locking pins, and top inserts to help maintain humidity levels. The bottom of the terrarium is watertight, ideal for plantings or water feature. The top of the terrarium is made with a hinged panel that allows for easy access and a powder coated screen to resist rust in a high humidity environment.

Filtration for Aquatic Reptile Terrariums

AQUATIC REPTILE INTERNAL FILTER

with SmartClean™ Technology

Easy to use, efficient, and eco-friendly describes Zilla® Aquatic Reptile Internal Filter with SmartClean™ Technology. SmartClean™ Technology provides simple water changes to help improve water quality. Installation is quick and easy, and the auto-start pump requires no priming, will automatically restart if power is interrupted and restored.

This Aquatic Reptile Internal Filter is designed for turtles and other aquatic animals featuring a protective grate that helps to prevent the animal from entering the filter. This filter comes in one size with an adjustable flow rate for up to 20G of water.

(*Apalone spinifera*)

Screen Covers and Accessories

Keeping a pet secure in their habitat not only prevents surprises for unsuspecting family members, but also keeps them safe. An escaped pet can get injured or hide for days or weeks after the stress of their breakout. When this happens, they can become ill by slowly starving themselves of food, water or warmth. A properly secured, adequately ventilated reptile terrarium keeps everybody happy. Pets stay active and thrive in an enclosure topped by a screen that allows air and heat to flow freely.

SCREEN COVERS - SOLID

Zilla® Screen Covers promote the necessary exchange of air to keep cold-blooded reptiles healthy and active. The metal mesh is tough enough to withstand the clawing of the largest pets. Designed with lighting in mind, the mesh stands up to the high temperatures that heat bulbs can generate. Long-lasting black steel frame keeps its shape through years of daily use.

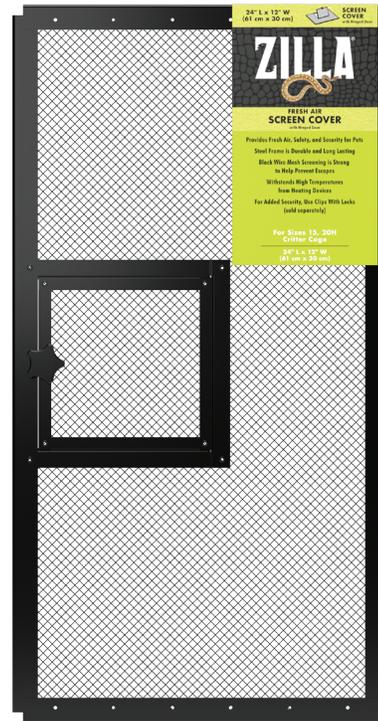

Item No.	Size	Fits Terrarium Size	Case Qty.	Retail Package Dimension (L" x W" x H")	UPC
100111955	12 x 6	2.5	24	12.5 x 7 x .75	0 96316 67007 5

100111435	48 x 18	75, 90	12	48.5 x 19 x .75	0 96316 67027 3

SCREEN COVERS WITH HINGED DOOR

Provide the refreshing air circulation of a Screen Cover with the added feeding convenience of a hinged access door. Reptiles are kept enclosed under the protection of tough escape-proof mesh that resists scratches, bites and corrosion. Both the mesh and the steel frame are designed to withstand the high temperatures from heat lamps.

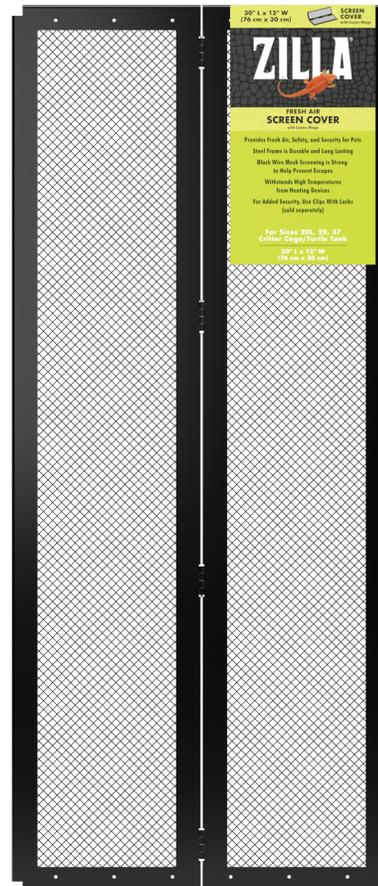

Item No.	Size	Fits Terrarium Size	Case Qty.	Retail Package Dimension (L" x W" x H")	UPC
100111752	20 x 10	10, 20X	24	20.5 x 11 x .75	0 96316 67009 9

100111875	30 x 12	20L, 29, 37	24	30.5 x 13 x .75	0 96316 67015 0

SCREEN COVERS WITH CENTER HINGE

Perfect for habitats that require frequent access, the screen cover is hinged lengthwise allowing entry without the need to remove the heat/light fixtures. Black mesh stands up to the high temperatures heating bulbs generate. The long-lasting black steel frame keeps its shape through years of daily use.

Item No.	Size	Fits Terrarium Size	Case Qty.	Retail Package Dimension (L" x W" x H")	UPC
100111441	20 x 10	10, 20X	24	20.5 x 11 x .75	0 96316 67010 5

NON-LOCKING SCREEN CLIPS

Each clip firmly secures a corner of the Screen Cover to the terrarium rim without the use of extra hardware or complex installation. Simply slip the top of the clip into the top molding of the Screen Cover, then snap the clip's bottom between the glass and the terrarium frame.

HELPFUL TIP

Always ensure your reptile pet is securely housed.

Item No.	Style / Size	Case Qty.	Retail Package Dimension (Item Dimension) (L" x W" x H")	UPC
100111648	Non-Locking 5-29G	48	4 x 1 x 5.25 (.5 x 1.5 x 2.5)	0 96316 167109 6
100111497	Non-Locking 30G and larger	48	4 x 1 x 5.25 (.5 x 1.75 x 2.75)	0 96316 167110 2

HEAVY DUTY SCREEN CLIPS

These all-metal screen clips fasten securely to enclosure tops and frames. Their heavy duty construction provides extra security to keep reptiles inside their enclosures.

Item No.	Style / Size	Case Qty.	Retail Package Dimension (Item Dimension) (L" x W" x H")	UPC
100111646	Heavy-Duty 5-29G	48	4 x 1 x 6 (2.5 x 1.25 x 1.25)	0 96316 111646 7

Sonoran Mountain Kingsnake
(*Lampropeltis pyromelana*)

Bedding

Bedding is far more than a cushion underfoot in a reptile’s habitat. It is part of the décor, the overall feel of the terrarium, and helps create a natural habitat. Animals bury themselves in it to hide and many pets rely on it for nesting material. Cold-blooded herps are warmed by its insulation value and tropical pets appreciate the humidity it can provide. So choosing a bedding, litter or liner with the right attributes makes a big impact on the daily well-being and, ultimately, the lifespan of your pet.

For a complete Bedding Guide, go to page 44.

TERRARIUM LINERS

Simply roll out the plush green or brown carpet and cut to size as needed. Made from an absorbent, non-abrasive material that won't irritate sensitive feet, these liners are also treated with a biodegradable enzyme that reduces reptile odors. To clean, simply rinse with cold tap water and reuse. Ideal for juvenile reptiles that may accidentally ingest loose bedding when striking food.

BARK BLEND

Loose and light enough to encourage natural burrowing behavior, Zilla® Bark Blend promotes the free transfer of heat and moisture essential for the health of cold-blooded pets. Bark Blend is oven dried to eliminate pests naturally found in bark and makes it more absorbent, which helps maintain humidity inside the enclosure.

REPTILE COMFORT BEDDING

Zilla® Reptile Comfort Bedding is soft, low-dust, and made from ingredients that don't contain harmful chemicals or by-products. Perfect for reptiles that love to dig and hide. It's great for low humidity species and works well in both everyday habitats and quarantine setups. The bright color makes it easy to spot waste.

Lighting and Heating

Few things confuse beginner reptile owners more than choosing terrarium lighting. Begin the decision process by getting the answer to the following questions:

- 1) What is your pet's natural habitat? (Tropical or Desert)
- 2) How big is your terrarium?
- 3) Is day/night cycling a factor?

To a reptile, the right choice of terrarium bulb is as essential as food or water for long-term health. Far more than a source of simple illumination, Zilla® bulbs deliver essential ultraviolet and/or infrared energy that pets need for proper bone development, healthy metabolism and a proper level of activity.

For a complete Lighting & Heating Guide, go to page 45.

PREMIUM REFLECTOR DOMES

The Zilla® Black Reflector Dome incandescent light fixtures are designed to deliver years of heat or light to reptile terrariums. Each is topped with a ceramic socket to withstand constant heat of bulbs up to 250 watts. The black exterior and reflective white interior finishes are powder-coated for added luster and long life. Six foot power cord with an in-line on/off switch is positioned near the fixture for easy use. Spring clips, to hold dome securely on screen top, are included.

Item No.	Style / Size	Case Qty.	Retail Package Dimension (Item Dimension) (L" x W" x H")	UPC

100111931	Silver 8.5"	12	9.25 x 6 x 8.75	0 96316 67064 8

MOUNTING SPRING CLIP

The Zilla® Mounting Spring Clip keeps lighting domes securely locked into place. The clip fits most 5.5" and 8.5" domes and easily fits around the cord socket (up to 1-3/4") of the lighting dome. To attach, the clip firmly fastens to the screen cover with small metal hooks. It's discreet and the perfect solution!

PRO SOL FIXTURES

The newest technology in reptile lighting is here! The Zilla® Pro Sol Fixture combines functionality and modern design in one small, low-profile package. Each fixture has 4-6 sockets, including one night socket, that fit the Zilla® Mini Halogen and Zilla® Mini CFL bulbs so you can create a custom tropical or desert environment. With one fixture, you can get all the lighting essentials for a healthy reptile including visible daylight, UVB/UVA and a basking heat spot for day and night. The timed fixture incorporates surface-mounted timer to control day/night settings, as well as on/off. *Bulbs not included.*

- Available in 2 sizes (20" size has 4 sockets, 30" size has 6 sockets)
- 2 channels for day and nighttime settings
 - Timed version has LCD screen with back-up battery
 - Non-timed version has two cord switches

30" Pro Sol w/Timer is shown

MINI HEAT & UVB FIXTURE

The Mini Heat & UVB Fixture is a 3-in-1 solution that combines essential heat, UVB and visible light in a single compact design. The two G9 sockets accommodate the Zilla® Mini Compact Fluorescent Bulbs and Mini Halogen Bulbs, perfect for desert or tropical environments. The light fixture fits securely on the Zilla® Premium Aquatic Turtle Kit light rail and can also be used on any terrarium with a screen cover. *Bulbs not included.*

Item No.	Size	Case Qty.	Retail Package Dimension (Item Dimension) (L" x W" x H")	UPC
100128083	—	12	6.125 x 3 x 9.625 (5.125 x 9.25 x 2.5)	0 96316 28083 0

MINI COMPACT FLUORESCENT BULBS

These energy efficient G9-socket bulbs provide 6 watts of UVB/UVA light to maintain a healthy reptile.

- Tropical bulbs provide essential UVB (5-10 microwatts at 12") and UVA light by recreating a tropical rainforest environment.
- Desert bulbs provide an extra dose of UVB (10-15 microwatts at 12") and UVA light for reptiles that are native to desert environments.

Item No.	Size	Case Qty.	Retail Package Dimension (Item Dimension) (L" x W" x H")	UPC
Tropical

HALOGEN MINI DOME

The Zilla® Halogen Mini Dome provides a convenient alternative to regular domes. Smaller in size, it takes up less space on a terrarium top but still packs a powerful heat and light punch. Each unit comes with a reflective aluminum interior, spring mounting clip to keep dome in place and a 6 ft. power cord with on/off switch. *Bulb not included.*

Item No.	Size	Case Qty.	Retail Package Dimension (Item Dimension) (L" x W" x H")	UPC
100115629	—	12	4.75 x 4.75 x 2.25 (4.25 x 4.25 x 3.75)	0 96316 115629 6

MINI HALOGEN BULBS

Saves Energy! The high-intensity output of a Zilla® Mini Halogen Bulb is more energy efficient than standard incandescent bulbs. Available in three colors, each bulb pinpoints light and heat using less power. This provides healthy light and essential warmth in the reptile habitat.

HEAT & UVB BASKING FIXTURE

Get the combination of heat, light and UVB from one compact fixture. The Zilla® Heat & UVB Basking Fixture's unique design creates a basking area where heat, light and UVB are concentrated. Uses one Zilla® Fluorescent Coil Bulb and one Zilla® Mini Halogen Bulb and can be tailored for desert or tropical habitats. *Bulbs not included.*

Item No.	Size	Case Qty.	Retail Package Dimension (Item Dimension) (L" x W" x H")	UPC

LOW PROFILE FIXTURES

Low Profile Fixtures provide necessary light and heat to terrariums without the bulkiness of standard domes. The Low Profile Single Fixture houses one G9 socket for either a Mini Halogen or Mini Compact Fluorescent bulb, while the Low Profile Dual Fixture houses two G9 sockets and can hold one of each bulb. Both fixtures come with spring clips that hold the fixture to any screen cover. *Bulbs not included.*

**HELPFUL
TIP**

Replace your UV bulbs every 3,500 hours or 6 months to maintain effectiveness.

Heat Emitters

Reptiles self-regulate their body temperature by basking in warm areas and cooling down in other areas of the habitat. Maintaining the proper terrarium temperature is critical for proper digestion, growth, nesting and overall everyday activity. If too cool, reptiles may become sluggish and refrain from eating. If too warm, the pet will spend more time trying to find a cooling spot and slowly overheat. Zilla® Heat Mats and Heat Emitters are two ways to provide required warmth to a terrarium.

For a complete Heating Guide, go to page 45.

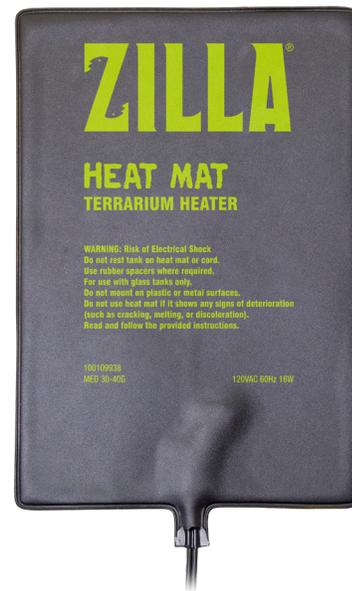

HEAT MATS

Watch the Video

Carbon fiber heating technology efficiently radiates infrared waves creating uniform heating with no hot spots. The carbon fiber material properties don't allow for the mat to overheat. Carbon fiber is an energy-efficient method for heating with no wires that might become pinched or broken. Each unit has adhesive backing.

MINI CERAMIC HEAT EMITTER

The durable Mini Ceramic Heat Emitter has a tough ceramic shell that protects it from accidental breakage. This unique heat emitter changes color from bright yellow to orange when hot, and back to yellow when it's safe to touch. It provides heat without light for use during the day or at night and will not disrupt sleep patterns.

Fits Low Profile, Pro Sol, and Mini Heat & UVB fixtures.

Use with
Pro Sol (pg 24) or
Low Profile (pg 26)
fixtures.

HEAT PROJECTORS

Zilla® Heat Projectors produce no visible light and provide heat without disturbing basking reptiles while they sleep. With a wide beam of heat, they have a more natural heating effect and efficiently direct heat into the terrarium. The IR-A and IR-B mimic the sun's rays and provides a deep heat to reptiles to warm them up gently. Ideal for all basking reptiles including diurnal lizards, snakes and tortoises.

Fits Zilla® Reflector Dome and Premium Reflector Dome sizes 5.5" and 8.5".

AQUATIC REPTILE HEATER

Designed for use in aquatic terrariums, Zilla® Aquatic Reptile Heater provides consistent warmth and protection. This compact, completely submersible 100W heater is preset to 78° and is equipped with an internal safety shut off to prevent overheating. Additionally, the heater is surrounded by a protective encasement and the cord is wrapped with a metal coil. This heater is ideal for terrariums up to 40 gallons, containing 30 gallons of water.

100128084	100 Watt	With up to 30 gallons of water	12	3.5 x 2.25 x 7.125 (1.5 x 1.5 x 6.5)	0 96316 28084 7

Environmental Control

The closer a terrarium's temperature, humidity and day/night light cycle come to a herp's natural habitat, the healthier the pet will be. To provide that consistently, busy pet owners will appreciate the assistance of devices that control and/or monitor light, heat and humidity. Zilla® Power Centers, Thermometers and Hygrometers add ease and dependability to habitat monitoring and control.

For a complete Temperature & Humidity Guide, go to page 47.

DIGITAL TEMPERATURE CONTROLLER

The Zilla® Digital Temperature Controller is a necessary part of your pet's husbandry. With a clear digital interface, this unit controls the temperature of your enclosure by controlling the heating element. Perfect for use with heat pads, ceramic heat emitters, heat tape, and other heating elements. Using the Digital Temperature Controller helps to reduce the risk of burns or overheating your pet reptile.

Food

Feeding can be one of the most complex and time-consuming parts of keeping a healthy reptile pet. Fortunately, owners with busy modern lifestyles can turn to the convenience of Zilla® foods, treats and food supplements for live food. The key to a successful diet is understanding what type of food a pet requires and then matching it with the Zilla® product that meets their nutritional needs.

MEDLEY DIETS

Zilla® Reptile Medley Diets are crafted to be natural with added vitamins, minerals, and essential calcium for proper bone health. The inclusion of prebiotic and probiotics supports healthy digestion in both packages.

For Herbivores, enjoy a mix of fresh vegetables and fruits with nutrient-packed pellets, featuring carrot, sweet potato, bell peppers, papaya, apple, and pineapple.

Omnivores benefit from a combination of insects, fresh vegetables, fruits, and nutrient-packed pellets, including mealworms, carrots, black soldier fly larvae, sweet potato, and bell peppers. Elevate reptile's diets with Zilla's comprehensive and carefully curated nutrition solutions.

TURTLE STICKS

Zilla® Floating Turtle Sticks offer a balanced and complete diet for your aquatic companion. The formula includes high-quality protein from Shrimp Meal and Black Soldier Fly Larvae, ensuring optimal nutrition. Featuring prebiotic and probiotics, these sticks help support digestive health, with Vitamin C and Calcium as essential nutrients in a balanced diet. Formulated to reduce odor and water maintenance to keep your turtle's habitat clearer. Zilla® Turtle Sticks are crafted with natural ingredients with added vitamins and minerals, and are free from artificial colors, providing a wholesome and nutritious option for your turtle's dietary needs.

HELPFUL TIP

A varied diet provides nutrition and enrichment for aquatic turtles.

GUT LOAD CRICKET DRINK

Zilla® Cricket Drink helps maintain hydration for feeder insects and valuable pets in a convenient way. Simply place pre-blended Cricket Drink in a shallow dish and insects can safely drink without the fear of drowning. Ideal for any size insect, from the smallest pinhead cricket to the adult tarantula.

Vitamins, Supplements and Care

It is nearly impossible to recreate the wide variety of nutrients available in a reptile's natural habitat. The use of vitamins and supplements are perfectly normal and a very necessary part of reptile care. In an artificial environment, reptiles often favor the tastiest foods that may lack the proper nutrient level and balance of a well-rounded diet. Zilla® nutrition products were created for easy application, while achieving a variety of health goals for herps in captivity.

VITAMIN SUPPLEMENT FOOD SPRAY

Use Zilla® spray-on Vitamin Supplement by misting your reptile's food fifteen seconds before serving. The mist contains vitamins C, B1, B2, B6, B12, D3, Niacin, and Folic Acid.

TROPICAL MIST HUMIDITY SPRAY

Enriched with therapeutic emollients, vitamins and aloe vera conditioners, Tropical Mist can restore the humid environment a tropical reptile craves while enhancing skin suppleness and vivid coloration. Spray pet once daily as needed; suitable for use with tropical and semi-tropical species of reptiles and amphibians.

Item No.	Size	Case Qty.	Retail Package Dimension (L" x W" x H")	UPC
100111996	8 oz	12	2 x 2 x 7.25	0 96316 70005 5

SHED-EASE™ REPTILE BATH

Shed-Ease™ product makes shedding skin much easier, thanks to a rich formula of aloe vera and other emollients. After a 20 minute bath of Shed-Ease™ solution and water, most old skins are softened and slide off easily. Also adds a healthy luster to the new skin. Ideal for reptiles suffering from stress, poor health, improper diet or a lack of humidity.

Décor

While it is fun to decorate a reptile's habitat and watch them interact with the environment that was created, it also serves a serious function. It provides a number of essential needs like basking, shelter and protection. Zilla® décor offers a variety of structures that add visual appeal while providing these fundamental elements.

RAPID SENSE® UV DETECTING DÉCOR

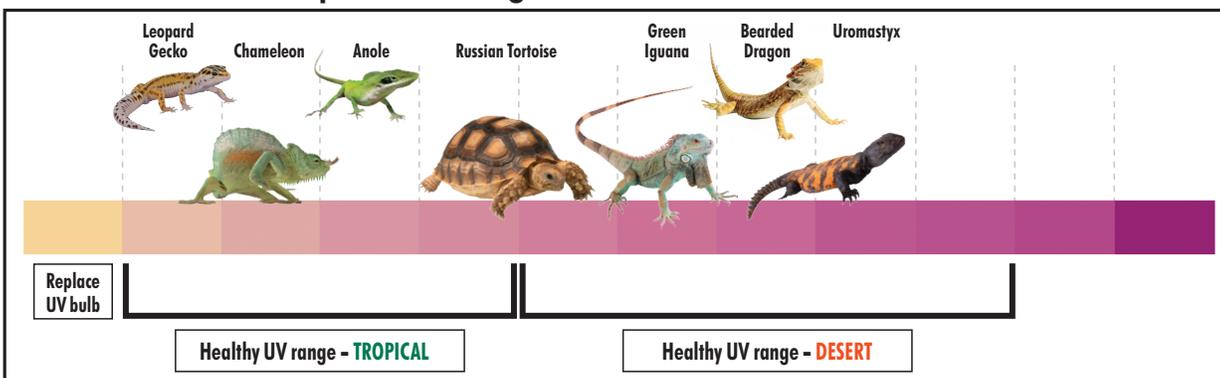

Zilla® Rapid Sense® UV Detecting Décor is functional décor with a purpose. This décor features a Rapid Sense® indicator area that will change color based on the amount of UVB. This will allow you to know when to replace your UV bulb and to ensure your animal is getting optimal UV for their health.

Recommendations on optimal UV range:

WATERFALLS

Zilla® Waterfalls help to create a tranquil and humid environment for your pet. Their natural look and feel helps them blend into even the most naturally designed habitat. Small openings for the cord and to drain the water keep feeder insects from drowning and your pets from getting stuck inside. Running water entices animals to drink and stay hydrated, while the water flow helps to add humidity to the habitat. These unique décor items can help transform any terrarium into a tropical paradise.

VERTICAL DÉCOR

Watch the Video

Providing décor for arboreal species can often be challenging. The Zilla® Vertical Décor uses strong suction cups that allow these realistic décor pieces to stick to the glass higher up where your gecko, frog, or snake feels more safe. Made from hard foam and painted to blend into the terrarium, these lightweight pieces of décor offer your pet an all new way to eat, bask, or hide.

Features:

- **Mushroom Feeding Ledge** - Comes with reusable feeding dish
- **Rock Cave** - Includes black window cling to use outside of the terrarium to provide security to the animals and allow you to view them without disturbing them

DENS AND HIDING PLACES

The three activities reptiles enjoy most: basking in warmth, climbing and relaxing in a cool burrow. Each shelter is made with non-porous exterior surfaces that are easy to clean with soapy water. They will not retain water or promote bacteria so terrariums stay healthier and smell fresher longer. Use for both aquatic and terrestrial environments.

DURABLE DÉCOR

Affordable and durable, these dishes and dens fit the needs of any reptile keeper. The rock look and texture enables your pet to climb on them easily, while still allowing for easy cleaning. A lip around the bottom and wide base adds stability to keep them from being knocked over. The strong plastic material can stand up to claws and heat, making the dens a great basking area as well.

REPTILE BEDDING

Bark Blend

- Encourages natural digging and burrowing behavior
- Evenly distributes heat and humidity throughout the terrarium
- 100% natural bark

Coconut Husk (Brick)

- 100% natural
- Holds moisture
- Ideal for egg incubation

Reptile Comfort Bedding

- Soft and Dye-Free - made from paper that's non-toxic
- Low-dust formula, helps keep the habitat cleaner and maintains air quality
- Encourages natural behavior - ideal for burrowing species

Jungle Mix

- 100% natural – ideal for tropical and forest habitats
- Holds moisture for humidity-loving reptiles
- Promotes digging, breeding and egg incubation

Snake & Lizard Litter (Aspen)

- Laboratory grade – choice of professional herpetologists
- Heat treated and ultra absorbent
- Hypo-allergenic – does not contain harmful aromatic oils
- 100% natural – environmentally friendly

Terrarium Liner

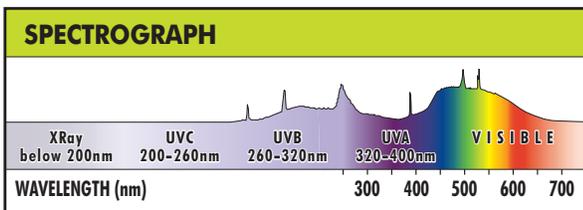

- Absorbent, non-abrasive material will not irritate
- Cannot be ingested
- Made from recycled materials

Lighting & Heating Guide

UNDERSTAND FLUORESCENT LIGHTING

Ultraviolet (or UV) light is represented in the light spectrum with the wavelength of 200 to 400 nanometers (nm). The UV spectrum is broken up into three parts: UVA, UVB and UVC, all of which are present in natural sunlight:

Reptiles and amphibians require UVB and UVA light – each of which is used for different purposes.

- UVA is in the visible range for reptiles, and is responsible for normal behaviors such as feeding, diurnal movement, mating and others.
- UVB is a non-visible wavelength, and allows the synthesis of vitamin D3, which helps to process calcium and support bone disease.
- UVC is also a non-visible wavelength, and is not required by reptiles. UVC is often used as the light source for UV sterilization for killing bacteria, and at high levels of exposure, can be harmful to most animals.

Zilla recommends replacing fluorescent bulbs every 3,500 hours or 12 months, as UV output decreases with time.*

Note: UV wavelengths are filtered by glass and plastic, so it is important that the bulb has direct exposure to the reptile's habitat.

1. Choose the proper light and/or heat fixture.

- Heat or UVB

- For use with reptiles that require a heated spot for basking or focused light.
- Ideal for: Incandescent Bulbs, Incandescent Spots, Fluorescent Coil Bulbs, Heat Emitters, Mini Halogen Bulbs

- Heat and/or UVB

- For use with a reptile that requires a heated spot for basking or focused light and UVB.
- Ideal for: Mini UVB, Mini Halogen, UVB Coil Bulbs

2. Choose the proper UV light bulb.

- Identify the reptile on the habitat guide and select recommended UV bulb.

Tropical 25 Fluorescent T8 Bulbs

Desert 50 Fluorescent T8 Bulbs

Mini G9 CF Bulbs

Tropical Series 25

Coil Bulbs

Desert Series 50

*3500 hours is based on a 10 hour day.

Lighting & Heating Guide (continued)

3. Choose the right heat bulb.

- Identify the reptile on the habitat guide and select recommended heating temperature requirements.

Incandescent Bulbs

Incandescent Spots

Mini Halogen Bulbs

- Provide a temperature gradient for the reptile where the animal can bask in the heat and then move to the other side of the living area to cool down.
