

PRO SOL FIXTURES

**No more bulky domes –
the newest technology in
reptile lighting is here!**

The Zilla® Pro Sol Fixture combines functionality and modern design in one small, low-profile package.

- Provides full coverage heat, UVA and UVB for a happy and healthy reptile
- Multiple heat sockets allow for a 24-hour hot basking spot while creating a smooth heat gradient throughout the terrarium
- Available in two options with individual control of day and night settings
 - Timed version includes a surface mounted LCD screen with back-up battery
 - Non-timed version includes 2 cord switches
- Fully customizable for tropical and desert species using Zilla® Mini Halogen and Zilla® Mini Compact Fluorescent bulbs (bulbs not included)
- Accessory clips included for overhead mounting

**Integrated timer
for day and
night control**
