

TERRARIUMS & ENCLOSURES

IDEAL STARTER KIT FOR JUVENILE TROPICAL ANIMALS

This complete starter kit makes owning your first tropical animal easy for the beginning hobbyist. The compact size 10 terrarium is ideal for temporarily housing any juvenile animal or as a permanent home for smaller animals that generally inhabit tropical environments. Simply add your own food and water bowls and decór to help your juvenile animal grow up healthy and strong before transferring to a larger enclosure or to help your small animals feel at home.

FEATURES AND BENEFITS

- **Premium quality 10G glass water-tight terrarium.**
- **Dome light fixture and bulb provides healthy amount of full spectrum light and UVA rays.**
- **Temperature/humidity gauge for monitoring your pet's environment.**
